Sec. 46-100. - Definition.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Cross connection means any physical connection or arrangement between two otherwise separate systems, one of which contains potable water from the city water system and, the other, water from private source, water of unknown or questionable safety, or steam, gases or chemicals, whereby there is a flow from one system to the other, the direction of flow depending on the pressure differential between the two systems.

(Code 1993, § 13.36(1))

Sec. 46-101. - Prohibited.

No person shall establish or permit to be established or maintain or permit to be maintained any cross connection. No interconnection shall be established whereby potable water from a private, auxiliary or emergency water supply other than supply or distribution system of the municipality is interconnected with the city's water utility facilities, unless such private, auxiliary or emergency water supply and the method of connection and use of such supply shall have been approved by the city water utility and by the state department of natural resources in accordance with Wis. Admin. Code § NR 111.25(3).

(Code 1993, § 13.36(2))

Sec. 46-102. - Inspections.

The water utility shall cause inspections to be made of all properties served by the public water where deemed possible. The frequency of inspections and reinspections based on potential health hazards involved shall be as established by the water utility and as approved by the DNR. On request the owner, lessee or occupant of any property so served shall furnish to the inspection agency any pertinent information regarding the piping system on such property.

(Code 1993, § 13.36(3))

Sec. 46-103. - Right of entry.

Upon presentation of credentials, the representative of the water utility shall have the right to request entry at any reasonable time to examine any property served by a connection to the public water system of the city for cross connections. If entry is refused, the city may pursue a warrant as provided by law.

(Code 1993, § 13.36(4))

Sec. 46-104. - Disconnection of water service.

The water utility is hereby authorized and directed to discontinue water service to any property wherein any connection in violation of this section exists and to take such other precautionary measures deemed necessary to eliminate any danger of
